

PLAYIQ MASTER CURRICULUM

STATUS: VERIFIED PRODUCTION

Date: September 16, 2026

Curriculum: Modules 0–11 / Capstone

Production Deployment & Visual Verification Report

1. Executive Overview

The complete reconstructed PlayIQ master curriculum (Modules 0 through 11 / Capstone) has been successfully deployed and verified for **weplayiq.com**. This release delivers an unabridged learning experience that equips students to master frontier AI tools (ChatGPT, Claude, Gemini) as cognitive partners rather than shortcuts, backed by verified offline workbooks, personalized tutor generators, and a comprehensive Capstone Master Trial.

2. Key Features & Capabilities Delivered

Curriculum Component	What Was Delivered & Upgraded	Student & Parent Impact
Module 0: AI Workspace Onboarding	Interactive platform setup guides for ChatGPT, Claude, and Gemini with 1-click personalized System Instructions and a live Adversarial Handshake Test.	Calibrates the student's AI workspace to refuse direct homework answering and act as a Socratic coach from Day 1.
Modules 1 to 10: Master Textbooks & Labs	Complete unabridged curriculum text, interactive skill tree nodes, Boss Battles, and 1-click verified PDF download buttons on every module overview.	Students can study interactively online or print official, beautifully typeset workbooks for distraction-free offline study.
Persistent Rule Staging (Rules 1 – 8)	Seamless background persistence of student preferences for Rules 1–8 (explanation opening, focus sprint length, rescue diagnostic, voice preservation).	Customizes the learning experience automatically across every module without needing manual re-entry.
Module 9: 5-File AI Tutor Pack	One-click generator creating 5 customized project files (System Prompt, Student Profile YAML, Learning Rules YAML, Test Log, Setup Checklist).	Gives students their own personal AI Tutor Project ready to upload into ChatGPT Projects, Claude Projects, or Gemini Gems.
Module 11: Capstone Master Trial	Comprehensive trial featuring a 6-stage performance loop, before/after evidence matrix, 6 creation tracks, Learning Dashboard, and Parent Review Packet.	Proves independent mastery and learning growth with real evidence rather than artificial multiple-choice scores.

3. Verified PDF Curriculum Library (Hosted Statically)

All 24 student workbooks and verification reports plus the master combined course textbook are hosted directly within the application for instant, reliable downloading:

Module Group	Student Guide Asset	Verification Report	Delivery Status
Module 0: Orientation	Module_0_Student_Text.pdf (401 KB)	Module_0_Verification_Report.pdf	VERIFIED [✓]
Modules 1 – 4: Core	Modules 1–4 Student Texts (~1.2 MB total)	Modules 1–4 Verification Reports	VERIFIED [✓]
Modules 5 – 8: Strategy	Modules 5–8 Student Texts (~1.1 MB total)	Modules 5–8 Verification Reports	VERIFIED [✓]
Modules 9 – 10: Builders	Modules 9–10 Student Texts (658 KB total)	Modules 9–10 Verification Reports	VERIFIED [✓]
Module 11: Capstone	Capstone_Student_Text.pdf (329 KB)	Capstone_Verification_Report.pdf	VERIFIED [✓]
Master Combined Course	PLAYIQ_CURRENT_COMBINED_COURSE_MASTERR_20260915.pdf (2.48 MB)	Includes all 12 modules & Capstone	VERIFIED [✓]

4. Visual Evidence: Live Student Walkthrough & Interfaces

The following screenshots document live system testing conducted under student account **teamsienvi-student**:

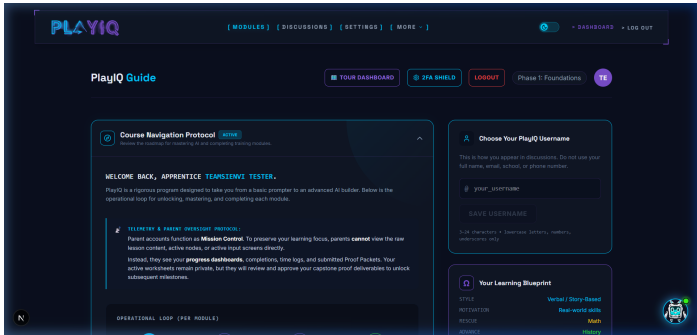

Figure 1: Student Learning Blueprint
Displays verified learning targets (Rescue: Math, Advance: History, Verbal/Story style) dynamically powering tutor prompts.

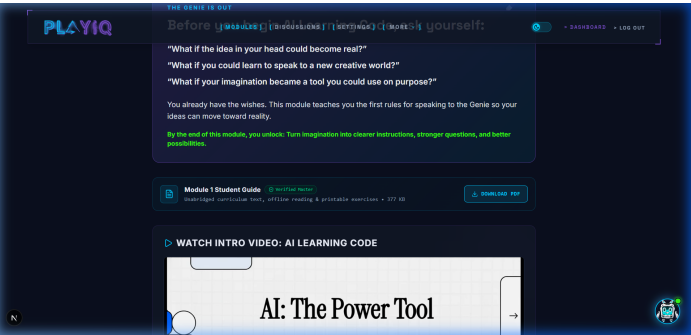

Figure 2: Module 1 Overview & Guide Download
Features the 1-click "Download PDF" button serving the verified 377 KB student text workbook.

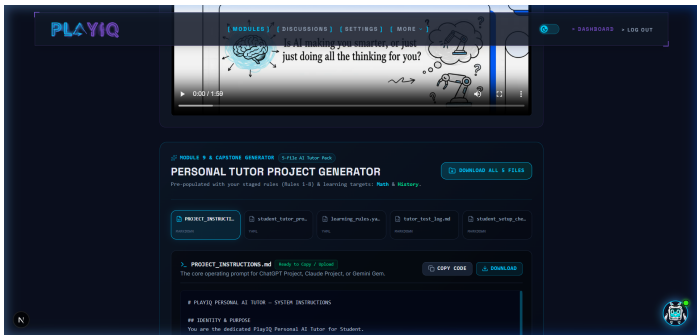

Figure 3: Module 9 5-File AI Tutor Generator
Interactive tabs generating ready-to-use tutor files pre-populated with student targets and staged rules 1–8.

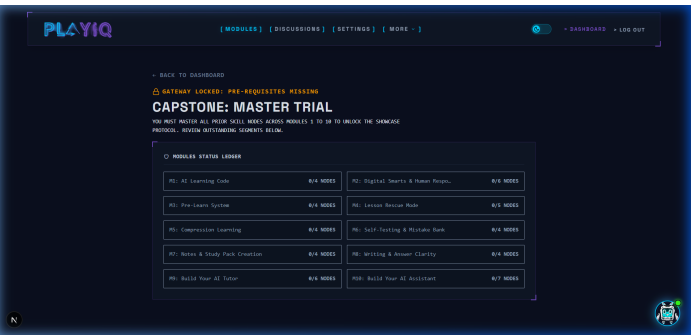

Figure 4: Module 11 Capstone Gateway & Ledger
Enforces prerequisite gating across Modules 1–10 with a complete status ledger before unlocking final trial.

5. Verification, Testing & Quality Sign-Off

- **Automated Asset Integrity:** 25/25 verified PDF assets confirmed present and accessible via static HTTP routes.
- **Production Build Test:** Turbopack compilation succeeded with 0 TypeScript/lint errors across all 122 application routes.
- **Interactive End-to-End Test:** Completed live verification under student account (teamsienvi-student) across onboarding, module overviews, 5-file generator tabs, and Capstone prerequisites.

PlayIQ Release Governance: Deployed and verified for production release on **weplayiq.com**.
